## World Autism Congress 2010

Autism Children Foundation Hong Kong (ACF”) co- hosted the World Autism Congress (Asia) on May 15 -16, 2010 at the Hong Kong Academy of Medicine in Hong Kong. We invited 18 leading accredited researchers and clinicians from US and Europe as speakers for 2-day Congress preceding the Gala Dinner. They dissected causes of autism, provided insights on latest research across interrelated fields such as treatment protocols, effective behavioral, communications/ language developments and strategies, and shared recent recovery cases in autistic children. We are happy to have BNP Paribas, ING, Thomas and friends ( the global toy brand), HIT Entertainment..... as our sponsor.
