## **July 2010 “We have moved to a new place .....**

We have just finished our 2009-2010 year. It has been another fruitful and challenging year for the HKJ team. Having started our program two years ago in a commercial premise, we are happy to inform you that starting from August, we are moving to a new premises. For the first time, we will be running our service in a normal primary school setting. The School is a regular co-ed primary school. It is a 5-storey building that houses 12 classrooms, a library, playground, a roof top garden and seven other special rooms such as the music room, computer room, guidance room, English reading room and 2 learning support rooms. We are allocated classrooms to run our own unique program yet with some degree of integration. This is an excellent opportunity for our kids as they will have access to all these facilities plus a very rare chance to be integrated in a regular school environment. Our academic curriculum will remain the same with enriched personal social development.
